

CLAIM AMENDMENTS

IN THE CLAIMS:

1. (Currently Amended) A lighting fixture, ~~in particular to for an exit sign luminaire or other instructive luminaire for connection to a power supply and mounting to a mounting base, which comprises said lighting fixture comprising~~
~~a light source,~~
a mounting housing that is arranged to receive ~~a~~said light source ~~of the luminaire~~ and ~~a~~said power supply for the light source, and the mounting housing ~~is~~being further arranged to be secured to a mounting base, ~~such as a wall or a ceiling, and~~
a sign part ~~that is~~ arranged for securing in connection with the mounting housing, ~~and wherein the~~
~~the lighting fixture further comprises at least one optical fiber arranged to transmit light, the optical fiber including a light-transmitting portion and a first end, of which optical fiber is said first end being disposed proximally to arranged in connection with the light source in the mounting housing, said and whose light-transmitting portion being disposed to transmit light emitted by the light source to is arranged in connection with the sign part so as to illuminate the sign part with light emitted by the light source.~~
2. The lighting fixture of claim 1, wherein the light-transmitting portion of the optical fiber comprises ~~the~~a second end of the optical fiber.
3. The lighting fixture of claim 1, wherein the light-transmitting portion of the optical fiber comprises an optical fiber portion that is arranged to pass light through its side.
4. The lighting fixture of claim 1, ~~2 or 3,~~ wherein the sign part is at least partly of light-transmitting material and that the light-transmitting portion of the optical fiber is disposed inside the sign part.
5. The lighting fixture of claim 1, wherein the light-transmitting portion of the optical fiber comprises ~~the~~a second end of the optical fiber and a portion substantially in the vicinity of the second end of the optical fiber.
6. The lighting fixture of claim 1, ~~2, 3 or 5,~~ wherein the sign part is a plate that is at least partly closed.
7. The lighting fixture of claim 1, wherein the sign part is arranged to be secured to the mounting housing at least partly through one or more optical fibers.
8. The lighting fixture of claim 4, wherein the sign part is arranged to be secured to the mounting housing at least partly through one or more optical fibers.
9. The lighting fixture of claim 1, wherein the sign part is a luminous sign.

In re Appln. of Tabell
U.S. Application Claiming Priority to
Finnish Application No.: 20021979

10. The lighting fixture of claim 4, wherein the sign part is a luminous sign.
11. A luminous sign that is arranged for use in a lighting fixture for, such as an exit
~~sign luminaire or other~~ instructive luminaire, wherein the luminous sign comprises one or more cavities leading inside the luminous sign that are arranged to receive an optical fiber for illuminating the luminous sign.

Please add the following claims:

12. The lighting fixture of claim 2 wherein the sign part is at least partially of light-transmitting material and that the light-transmitting portion of the optical fiber is disposed inside the sign part.
13. The lighting fixture of claim 3 wherein the sign part is at least partially of light-transmitting material and that the light-transmitting portion of the optical fiber is disposed inside the sign part.
14. The lighting fixture of claim 2 wherein the sign part is a plate that is at least partially closed.
15. The lighting fixture of claim 3 wherein the sign part is a plate that is at least partially closed.
16. The lighting fixture of claim 5 wherein the sign part is a plate that is at least partially closed.
